

Máté Bajusz

Backend Engineer

👤 Profile

Backend Developer with medium level of experience working on multiple projects. Proficient in AWS platform, several languages such as Go, PHP, JavaScript. Experienced with scalable architecture, micro services, CI-CD, version control, clean code and other development tools and procedures. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. I'm interested in Cloud, back-end development and distributed systems.
