Self-motivated Web Developer with medium level of experience working on multiple projects. Passionate and hardworking with penchant for meeting deadlines. Interested in role with company promoting best practices and offering diverse customer projects. I love to learn and this is my main quality, so if I have to learn any new library or framework I am comfortable with learning on the job.

Before I got my first web developer job, I taught myself JavaScript, HTML, CSS in 2 months from Udemy and made a web application in node.js with mongoDB. I launched it to production using Heroku to host it. You can take a look at mens-hairproducts.com.

At Webpont, my biggest challenge was porting a really old PHP application to Laravel, which is now much more reliable, easier and cheaper to maintain. I reduced the codebase to less than half of the original.

Go is my favourite language right now. I made dozens of little web apps with it, and I am making a huge app with it that I plan to launch in production. I have experience with Gin and Gorilla frameworks.

Skills

Go	Very Good
PHP	Very Good
JavaScript	Good
MySQL, PostgreSQL	Excellent
MongoDB	Good
AWS	Very Good
Docker	Very Good

◆ Scalable web applications, microservices

◆◆◆◆◆
Very Good

◆ Object Oriented programming

◆ Work History

◆ May 2018 - **Backend Developer**

Current *Webpont, Miskolc*

- Developed web applications, websites with PHP, SQL and JavaScript and other libraries as needed. Worked with Laravel, jQuery, PDO, Object oriented PHP,
- Managed a huge MySQL database.
- Projects were focused on sport analytics.

◆ Dec 2017 - **Full-Stack Developer**

Current *Self-employed, Miskolc*

- Made scalable web applications using Go, Node.js using Microservices and containerization with Docker.
- Explored Amazon Web Services (AWS) and Heroku, from deploying to hosting.
- Used database systems such as PostgreSQL and MongoDB.
- Used technologies such as gRPC, Gin, Gorilla, Express, React, Nginx, Redis.

◆ Education

◆ Sep 2017 - **Bachelor of Science: Computer Science**

Current *University of Miskolc - Miskolc*

◆ *Udemy - Udemy.com*

I usually learn from Udemy, and then practice what I learned on my own projects.

◆ hobbies

◆ I love programming, going to the gym and motorcycling. I like to develop myself, so I learn a lot about topics I'm interested in.
